## SUMMARY

Aspiring Web Developer with strong foundation in HTML, CSS, and JavaScript. Successfully created and deployed portfolio websites and To-Do applications, optimizing front-end performance and ensuring mobile responsiveness through GitHub collaboration. Seeking opportunities to leverage technical skills in web design and version control for impactful user-centric projects.

## EXPERIENCE

### web development

#### Vaultofcodes – AICTE Internship

July 2025 - August 2025, virtual

- Created and deployed a portfolio website and a To-Do List web app using HTML, CSS, and JavaScript.
- Contributed to the VaultofCodes website, managing updates and version control with Git & GitHub.
- Enhanced skills in responsive design and deployment, ensuring mobile-friendly and accessible web pages.

## PROJECT

### Weather App Using OpenWeatherMap API

Personal Project • [github.com/swathi-webdev/Weather-App-using-OpenWeatherMap-API](https://github.com/swathi-webdev/Weather-App-using-OpenWeatherMap-API)

- Integrated the **OpenWeatherMap API** to deliver accurate real-time weather data.
- Enhanced user experience with an **intuitive interface design** and optimized performance for seamless cross-device accessibility.

### Login & Registration Page using HTML, CSS & JavaScript

Personal Project • [github.com/swathi-webdev/Login-page](https://github.com/swathi-webdev/Login-page)

- Improved the login and signup pages with error messages, clear feedback, and easy-to-use forms.
- Added interactive features to make the login process faster and smoother for users.

## EDUCATION

### Bachelor of Commerce in Computer Applications

Holy Cross College • Trichy • 2026 • 65%

### Government Girls Higher Secondary School

Karur • 2023 • 80.33%

## CERTIFICATIONS

### CSS, Bootstrap, JavaScript web development course

Udemy • 2025

- Built responsive websites using CSS for styling, Bootstrap for UI/layout, and JavaScript for interactivity, focusing on user-friendly design and modern frontend practices.

### Introduction to Databases and SQL Querying

Udemy • 2025

- Learned the fundamentals of relational databases and gained practical skills in writing SQL queries for data retrieval, filtering, and management.

### Git for beginners

Udemy • 2025

- Gained hands-on experience with Git fundamentals including repository setup, branch management, version control workflows, and using pull requests on GitHub.

## SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, Responsive Design

Programming Languages: JavaScript

Databases: SQL

Version Control & Collaboration: Git, GitHub

Tools &Software: MySQL Workbench, Visual Studio Code
